

Area		Construct	Indicator	Numerator	Denominator
Core Measures					
1	Implementation	Receipt of Home Visits	Percentage of recommended home visits received by families enrolled in the home visiting program during the reporting period	Number of home visits received by families during the reporting period	Number of home visits families should receive according to model developer fidelity requirements during the reporting period
2	Implementation	Home Visit Implementation Observation	Percentage of recommended home visits where home visitors are observed for implementation quality and receive feedback from their supervisors during the reporting period	Number of home visits where home visitors are observed for implementation quality and receive feedback from their supervisors during the reporting period	Number of home visits where home visitors should receive an observation according to model developer guidelines during the reporting period
3	Implementation	Reflective Supervision	Percentage of recommended individual and/or group reflective supervision sessions received by home visitors and supervisors during the reporting period	Number of individual and/or group reflective supervision sessions received by home visitors and supervisors during the reporting period	Number of individual and/or group reflective supervision sessions that home visitors and supervisors should receive during the reporting period
4	I - Maternal and Newborn Health	Depression Screening	Percent of primary caregivers enrolled in HV who are screened for depression using a validated tool within 3 months of enrollment (for those not enrolled prenatally) or within 3 months of delivery (for those enrolled prenatally) and at least annually thereafter	For those not enrolled prenatally, number of primary caregivers enrolled in HV who are screened for depression within the first three months since enrollment; for those enrolled prenatally, the number of primary caregivers screened for depression within three months of delivery; or annually after the first year of enrollment	Number of primary caregivers enrolled in HV for at least three months
5	I - Maternal and Newborn Health	Substance Abuse Screening	Percent of primary caregivers enrolled in HV who are screened for substance abuse using a validated tool within 3 months of enrollment and at least annually thereafter	Number of primary caregivers enrolled in HV who are screened for substance abuse using a validated tool within 3 months of enrollment and annually after the first year of enrollment	Number of primary caregivers enrolled in HV for at least three months
6	I - Maternal and Newborn Health	Well Child Visit	Percent of the AAP-recommended number of well-child visits received by children enrolled in home visiting during the reporting period	Number of AAP-recommended well-child visits received by children (index child) enrolled in home visiting during the reporting period	Number of AAP-recommended well-child visits children (index child) enrolled in home visiting should receive during the reporting period
7	II - Child Maltreatment, Injuries and ED Visits	Child Injury Prevention	Percentage of primary caregivers enrolled in home visiting who are provided with training on prevention of child injuries	Number of primary caregivers enrolled in home visiting who are provided with training on prevention of infant and child injuries during the reporting period	Number of primary caregivers enrolled in home visiting who should receive this information during the reporting period, according to model developer or program requirements
8	III – School Readiness and Achievement	Parent-Child Interaction	Percent of primary caregivers enrolled in HV who receive an observation of caregiver-child interaction by the home visitor using a validated tool.	Number of primary caregivers enrolled in HV who receive an observation of caregiver-child interaction by the home visitor using a validated tool	Number of primary caregivers enrolled in HV with children reaching desired age range

Tribal MIECHV Core and Flex Performance Measures 3.4.16

Area		Construct	Indicator	Numerator	Denominator
9	III – School Readiness and Achievement	Developmental Screening	Percentage of children enrolled in HV screened at least annually for developmental delays using a validated* parent-completed tool	Number of children (index child) enrolled in HV with at least one developmental screening during the reporting period.	Number of children (index child) enrolled in HV during the reporting period
10	IV - Crime or Domestic Violence	IPV Screening	Percentage of primary caregivers enrolled in HV who are screened for intimate partner violence using a validated* tool within 6 months of enrollment and at least annually thereafter	Number of primary caregivers enrolled in HV who are screened for IPV using a validated tool within 6 months of enrollment and annually after the first year of enrollment	Number of primary caregivers enrolled in HV for at least 6 months
11	V - Family Economic Self-Sufficiency	Screening for Economic Strain	Percentage of primary caregivers who are screened for unmet basic needs (poverty, food insecurity, housing insecurity, etc.) within 3 months of enrollment and at least annually thereafter	Number of primary caregivers who are screened for unmet basic needs within 3 months of enrollment and annually after the first year of enrollment	Number of primary caregivers enrolled in home visiting for at least 3 months
12	VI- Coordination and Referrals	Completed Developmental Referrals	Percentage of children enrolled in home visiting with positive screens for developmental delays (measured using a validated* tool) who receive a timely referral for services and a follow up	Number of children (index child) enrolled in HV who received referral information to early intervention services (and met the conditions specified in the denominator) and for whom the HV program followed up on the referral within 30 days	Number of children (index child) enrolled in HV during the reporting period with positive screens for developmental delays (measured using a validated tool)
Flex Measures (select 2 from 1-7 and 1 from 8-11)					
1	I - Maternal and Newborn Health	Breastfeeding	Percentage of women enrolled prior to child's birth who initiate breastfeeding	Number of women enrolled prenatally who initiate breastfeeding	Number of women enrolled prenatally
2	I - Maternal and Newborn Health	Postpartum Care	Percent of mothers enrolled in HV prenatally or within 30 days after delivery who received a postpartum visit with a health care provider within 8 weeks (56 days) of delivery.	Number of mothers enrolled in HV prenatally or within 30 days after delivery who received a postpartum visit with a health care provider within 8 weeks (56 days) of delivery	Number of mothers who enrolled in HV prenatally or within 30 days after delivery and remained enrolled for at least 8 weeks (56 days) after delivery
3	I - Maternal and Newborn Health	Immunizations	Percent of children enrolled in home visiting who receive all AAP-recommended immunizations during the reporting period	Number of children (index child) enrolled in HV who receive all AAP-recommended immunizations during the reporting period	Number of children (index child) enrolled in HV during the reporting period
4	II - Child Maltreatment, Injuries and ED Visits	Screening for Parenting Stress	Percentage of primary caregivers who are screened for parenting stress using a validated* tool within 3 months of enrollment and at least annually thereafter	Number of primary caregivers who are screened for parenting stress using a validated tool within 3 months of enrollment and at least annually after the first year of enrollment	Number of primary caregivers enrolled in home visiting for at least 3 months
5	II - Child Maltreatment, Injuries and ED Visits	Safe Sleep	Percentage of primary caregivers educated about the importance of putting infants to sleep on their backs, without bed-sharing and soft-bedding	Number of primary caregivers educated about the importance of putting infants to sleep on their backs, and without bed-sharing and soft-bedding	Number of primary caregivers enrolled in home visiting during the reporting period
6	II - Child Maltreatment, Injuries and ED	Child Injury	Rate of injury-related visits to the Emergency Department (ED) or urgent care since enrollment among children enrolled in HV.	Number of parent-reported nonfatal injury-related visits to the Emergency Department (ED) or urgent care since	Number of children (index child) enrolled in HV during the reporting period

Area		Construct	Indicator	Numerator	Denominator
	<i>Visits</i>			enrollment among children (index child) enrolled in HV	
7	III – School Readiness and Achievement	Early Language and Literacy Activities	Percent of children enrolled in HV with a family member who reported that during a typical week s/he read, told stories, and/or sang songs with their child daily every day.	Number of children (index child) enrolled in HV with a family member who reported that during a typical week s/he read, told stories, and/or sang songs with their child daily every day.	Number of children (index child) enrolled in HV during the reporting period
8	VI- Coordination and Referrals	Completed IPV referrals	Percentage of primary caregivers screening positive for intimate partner violence who receive a timely referral for services and a follow up	Number of primary caregivers enrolled in HV who received referral information to appropriate services (and met the conditions specified in the denominator) and for whom the HV program followed up on the referral within 30 days	Number of primary caregivers enrolled in HV with positive screens for IPV (measured using a validated tool)
9	VI- Coordination and Referrals	Completed Depression and Parenting Stress Referrals	Percent of primary caregivers screening positive for depression or parenting stress using a validated* tool who receive a timely referral for services and a follow up	Number of primary caregivers enrolled in HV who received referral information to appropriate services (and met the conditions specified in the denominator) and for whom the HV program followed up on the referral within 30 days	Number of primary caregivers enrolled in HV who had a positive screen for depression or parenting stress (measured using a validated tool)
10	VI- Coordination and Referrals	Completed Substance Abuse Referrals	Percent of primary caregivers screening positive for substance abuse using a validated* tool who receive a timely referral for services and a follow up	Number of primary caregivers enrolled in HV who received referral information to appropriate services (and met the conditions specified in the denominator) and for whom the HV program followed up on the referral within 30 days	Number of primary caregivers enrolled in HV who had a positive screen for substance abuse (measured using a validated tool)
11	VI- Coordination and Referrals	Completed Economic Strain Referrals	Percent of primary caregivers with unmet basic needs who receive a timely referral for services and a follow up	Number of primary caregivers enrolled in HV who received referral information to appropriate services (and met the conditions specified in the denominator) and for whom the HV program followed up on the referral within 30 days	Number of primary caregivers enrolled in HV who had a positive screen for unmet basic needs
