#### PART 3: American Rescue Plan (ARP) Act Stabilization Grants

The American Rescue Plan (ARP) Act included funding for child care stabilization grants to stabilize the child care sector and do so in a way that builds back a stronger child care system that supports the developmental and learning needs of children, meets parents' needs and preferences with equal access to high-quality child care, and supports a professionalized workforce that is fairly and appropriately compensated for the essential skilled work that they do. Tribal Lead Agencies must spend stabilization funds to support the stability of the child care sector during and after the COVID-19 public health emergency. This section should include information about the ARP stabilization grants awarded to providers during the Federal fiscal year.
